IT2010 Conference, Zabljak, 27 February 2010

Basic data on the EuroRIS—Net project

Funded by the European Commission under the 7th Framework Programme Coordination and Support Action Programme

- *Starting date*: 11st November 2007
- *Duration*: 4 years
- *Total Budget*: 1.799.971,74 €
- *Consortium*: RI NCPs of more than 35 countries : EU Member states, Associated States and Russia, Canada, Southouth Africa)
- *Coordinator*: National Hellenic Research Foundation(EKT-NHRF)

Main objectives of EuroRisNet Project

- To ensure the effective implementation of the RI Programme by fostering cooperation among National Contact Points (RIsNCPs)
- To upgrade the professional skills of the RI NCPs network at European level in order to improve its coherence
- To provide coherent, high-quality services and to increase the visibility of the RI Programme to the scientific communities, industrial sector and users of RIs at Pan-European level
- Networking with other NCP networks for the promotion of RI Programme capabilities and to cultivate a “wide culture on RIs” across Europe

EuroRisNet: Workpackages

- **WP1:** Management
- **WP2:** Sharing Experiences and Good Practices for mutual benefit-Twinning Schemes
- **WP3:** Networking, Synergies and cross cutting NCPs activities – European Workshops
- **WP4:** Pan-European awareness and dissemination activities – Support to the users

Expected impact

- Contribution to an integrated European approach towards RIs and to increased investment in RIs
- More efficient implementation of the RI Programme
- Synergy with other NCP Networks Better professional skills of NCPs
- Increased participation of less involved research fields and convergence and outermost regions
- Better access of ICPC countries to information on RIs
- Better quality of proposals to be submitted
- Simplified transnational access to RIs
